Jutta Dönges and Holger Kreetz start positions in Uniper Board of Management, Klaus-Dieter Maubach leaves company

Tomorrow, on March 1, 2023, Uniper's new Chief Financial Officer, Jutta Dönges, and the new Chief Operating Officer, Holger Kreetz, will take on their positions in Uniper's Board of Management.

Klaus-Dieter Maubach has resigned from his Board position as of the end of February. Uniper had announced in January that he will leave the company.

The Supervisory Board is in an advanced process to appoint a successor for the CEO position and expects that the appointment can take place very soon.

Until the time of succession, corresponding tasks will be assumed on an interim basis by Jutta Dönges and Holger Kreetz.

Jutta Dönges: "I am looking forward to taking on my position at Uniper. There is a strong dynamic within the energy markets, and Uniper has an important role to play in many areas. This makes the role of the CFO interesting and challenging at the same time. Acting as a team we will work with great enthusiasm."

Holger Kreetz: "Uniper is entering a new chapter. I look forward to joining the Board of Management tomorrow. Together with the Uniper team, we will work on developing a new strategy and secure Uniper's future. We will ensure continuity in the work of the Board of Management."

About Uniper

Düsseldorf-based Uniper is an international energy company with activities in more than 40 countries. With around 7,000 employees, it makes an important contribution to security of supply in Europe. Uniper's core businesses are power generation in Europe, global energy trading, and a broad gas portfolio. Uniper procures gas – including liquefied natural gas (LNG) – and other energy sources on global markets. The company owns and operates gas storage facilities with a capacity of more than 7 billion cubic meters. Uniper plans for its 22.5 GW of installed power-generating capacity in Europe to be carbon-neutral by 2035. The company already ranks among Europe's largest operators of hydroelectric plants and intends to further expand solar and wind energy, which are essential for a more sustainable and autonomous future.

Uniper is a reliable partner for communities, municipal utilities, and industrial enterprises for planning and implementing innovative, lower-carbon solutions on their decarbonization journey. Uniper is a hydrogen pioneer, is active worldwide along the entire hydrogen value chain, and is conducting projects to make hydrogen a mainstay of the energy supply.
