For what purpose is your data processed, and on what legal basis does this take place? From where does Uniper SE obtain your data?

Uniper SE processes your personal data in accordance with the EU General Data Protection Regulation (GDPR), the German Data Protection Act (Bundesdatenschutzgesetz, BDSG), the German Stock Corporation Act (Aktiengesetz, AktG) and all other relevant legal regulations.

The shares of Uniper SE are no-par value registered shares. With this type of registered share, § 67 German Stock Corporation Act (AktG) stipulates that they shall be entered in the company's share register stating the name, date of birth and address of the shareholder, as well as the number of shares. The shareholder is legally obligated to provide this information to the company. If you do not agree to the provision of your data, they cannot be entered into the share register and you cannot make use of your rights as shareholder. The banks involved in the purchase, custody or disposal of your Uniper SE shares regularly relay the aforementioned information, and other information relevant for maintaining the share register (e.g. nationality, gender and remitting bank) to the share register. This is performed via Clearstream Banking Frankfurt, which, as the central securities depository, is responsible for the technical clearing and settlement of securities transactions, as well as for the custody of shares on behalf of credit institutions.

Uniper SE uses your personal data for the purposes defined in the German Stock Corporation Act (AktG). These particularly include the maintenance of the share register, and holding the annual general meetings. The legal basis for the processing of your personal data is the German Stock Corporation Act (AktG) in conjunction with Art. 6 para. 1 f) and para. 4 GDPR.

Where necessary, your personal data will also be processed in order to fulfil other statutory obligations, such as regulatory stipulations as well as retention obligations imposed by stock corporation, commercial and tax law regulations. For example, in the case where proxy holders are authorized by Uniper SE to vote at the annual general meeting, it is stipulated that the information that serves as evidence of the authorization, be retained for three years in a verifiable access-protected form (§ 134 (3) 5th sentence AktG)). The legal basis of the data processing in this case is provided by the relevant statutory regulations in conjunction with Art. 6 para. 1 c) GDPR.

In specific cases, Uniper SE shall also process your data for the purpose of protecting legitimate interests in accordance with Art. 6 para. 1 f) GDPR. For example, this can be the case with capital increases where information about subscription offers has to be excluded from specific shareholders due to their nationality or domicile, in order to comply with the securities regulations of the countries in question.

Alongside this, your data can also be used for preparing statistics, for example analyzing trends.

If it is proposed to process your data for any other purpose, you shall be notified in advance within the limits of the statutory regulations.

To what categories of recipients might your data be relayed?

External service providers: Uniper SE uses the services of external providers for maintaining the share register and for the technical aspects of holding the annual general meeting. These are for example companies in the categories print and distribution services or support services in connection with conducting the shareholders' meeting. ADEUS Aktienregister-Service-GmbH, Munich has been commissioned with maintaining Uniper SE's share register and receives data necessary for the performance of this service.

Other recipients: In addition, it may be necessary to transmit your personal data to other service providers insofar as this is expedient for the fulfilment of statutory obligations. If you attend the annual general meeting, other shareholders of Uniper SE may be able to see data pertaining to your person contained in the list of participants prepared in accordance with § 129 AktG.

For how long will your data remain stored?

As a rule, your personal data shall be deleted or anonymized once it is no longer needed for the aforementioned purposes, and provided statutory documentation and retention obligations do not mean Uniper SE is required to store such data for a longer period. The retention period for data recorded in connection with annual general meetings usually amounts to 3 years. The data stored in the share register shall, under normal circumstances, be retained for a period of 10 years following the disposal of shares. In addition, Uniper SE shall retain personal data only if this is necessary in connection with claims asserted against Uniper SE (statutory retention period of typically 3 years, in certain circumstances of up to 30 years).
