- (4) The registered share capital is conditionally increased by up to €145,112,289 through the issue of up to 85,360,170 registered no-par-value shares (**2016 Conditional Capital**). The conditional capital increase serves the granting of shares upon the exercise of conversion rights, conversion obligations, option rights and/or option obligations that are issued on the basis of the authorisation of the Board of Management in accordance with the resolution of the General Meeting dated 30 August 2016 by the Company or by companies affiliated with the Company pursuant to sections 15 et seq. of the German Stock Corporation Act, and/or upon the exercise of an option of the Company to grant shares of the Company in whole or in part instead of the payment of the amount of money due. The Board of Management, with the consent of the Supervisory Board, is authorised to determine the further details of the implementation of the conditional capital increase.

- (5) The Board of Management, with the approval of the Supervisory Board, is authorised to increase until 30 June 2021, the registered share capital of the Company by up to €145,112,289 by the issuance, one or several times, of up to 85,360,170 new registered no-par-value shares against cash and/or non-cash contributions (authorised capital pursuant to sections 202 et seq. of the German Stock Corporation Act, **2016 Authorised Capital**).
- (6) The shareholders are to be granted a subscription right as a matter of principle. The new shares may also be taken over by credit institutions determined by the Board of Management or by companies operating in accordance with section 53 para. 1 sentence 1 or section 53b para. 1 sentence 1 or para. 7 of the German Banking Act (Gesetz über das Kreditwesen – KWG) which undertake to offer them to the shareholders (indirect subscription right).

If other authorisations to issue or dispose of shares of the Company or to issue rights, which enable or oblige to subscribe to shares of the Company, are exercised during the term of this authorisation up to its utilization under exclusion of the subscription right pursuant to or in accordance with section 186 para. 3 sentence 4 of the German Stock Corporation Act at the same time, this must be set off against the aforementioned 10 percent limit.

shares issued under this authorisation against non-cash contributions with an exclusion of the shareholders' subscription right does not exceed 20 percent of the registered share capital at the time this authorisation takes effect or, should this value be lower, at the time of the utilisation of this authorisation.

Furthermore, the Board of Management, with the approval of the Supervisory Board, is authorised to exclude fractional amounts from the shareholders' subscription right and also to exclude the subscription right to such extent as is necessary in order to grant to the holders of previously issued bonds carrying conversion or option rights or, respectively, conversion obligations, a subscription right to new shares to such extent as they would be entitled to upon exercising their conversion or option right, respectively, in the case of a conversion obligation.

Finally, the Board of Management, with the approval of the Supervisory Board, is authorised to exclude the shareholders' subscription right for the issue of shares to persons in an employment relationship with the Company or one of its affiliated companies.

These authorisations to exclude the subscription right only apply to the extent that the new shares issued under this authorisation that must be issued together with shares – which have been issued or disposed of by the Company during the term of this authorisation up to its utilisation under another existing authorisation under exclusion of the subscription right of the shareholders, or which are to be issued due to rights that are issued during the term of this authorisation up to its utilisation on the basis of another existing authorisation with an exclusion of the subscription right, and which enable or oblige to subscribe for shares of the Company – are not calculated to exceed 20 percent of the registered share capital at the time this authorisation takes effect or, should this value be lower, at the time of the utilisation of this authorisation.

The Board of Management, with the approval of the Supervisory Board, is authorised to determine the further contents of the rights attached to the shares as well as the further details and terms and conditions of the capital increase and its implementation. The Supervisory Board is authorised to make adjustments to the wording of the Articles of Association after the increase of the registered share capital has been implemented, in whole or in part, in accordance with the respective utilisation, in each case, of the 2016 Authorised Capital and, if the 2016 Authorised Capital has not or not been completely utilised until 30 June 2021, after the expiry of the term of the authorisation period.
